Senior Backend & AI Engineer with 5+ years building distributed Python services and ML systems.

TECHNICAL SKILLS

- Languages & Frameworks: Python, FastAPI, PyTorch, SQL, PostgreSQL, REST APIs, Docker, AWS.

WORK EXPERIENCE

Staff Backend Engineer — CloudScale Systems (2022 – Present)

- Built high-throughput Python applications using FastAPI and SQL databases, handling 50k requests per second.
- Designed PostgreSQL database architecture, partition schemas, and optimized critical SQL analytical queries.
- Developed resilient REST APIs following OpenAPI standards with JWT authentication and rate limiting.
- Containerized microservices with Docker and orchestrated deployment via AWS ECS.
- Integrated PyTorch machine learning models for real-time natural language classification with sub-20ms latency.

PROJECTS & EDUCATION

- Distributed ML Pipeline: Open-source PyTorch and Docker automation tool for model evaluation.
- B.S. in Computer Science, State University, 2019.
