

Priya Nair

Email: priya.nair@example.com | Portfolio: priyanair.dev | Location: San Francisco, CA

Lead Backend & Distributed Systems Architect with extensive experience in microservices and neural networks.

CORE COMPETENCIES

- Distributed Systems, Microservices Architecture, Relational Databases, Deep Learning, API Design.

PROFESSIONAL EXPERIENCE

Senior Software Engineer — DataFlow Labs (2021 – Present)

- Engineered backend web services and API endpoints utilizing Express.js and Node.js frameworks for event streaming.
- Architected relational database schemas and indexed relational storage tables for transactional consistency.
- Implemented deep learning neural networks with TensorFlow and Keras for automated pattern recognition.
- Spearheaded containerization workflows and image packaging using container engines for cloud infrastructure.
- Designed resilient HTTP backend interfaces connecting multiple distributed microservice clusters.

EDUCATION

- M.S. in Software Systems, Institute of Technology, 2020.
